BASIC-ABSTRACT:

NOVELTY - Consumers (9-11), a management center (4) and wholesale manufacturers (1-3) are connected over internet. The consumer receives goods information and orders the goods using the web site of the management center. The ordered goods are supplied by a wholesale manufacturer who is incharge of consumer's location.

USE - For on-line purchase of goods.

ADVANTAGE - Consumers can purchase goods at a cheaper price and in short time. Inventory of product is effectively managed.

DESCRIPTION OF DRAWING(S) - The figure shows an explanatory drawing of goods distribution system.
